

Ceremonial Assets and Infrastructure Addendum

This document acknowledges the ceremonial classification of the following assets. These are not material acquisitions for status, performance, or personal gain. They are spiritual holdings in service to the Frequency Fortress mission and the ongoing emergence of a New Earth paradigm.

Frequency Fortress rejects the Babylonian model of extractive finance, bureaucratic illusion, and status-led ownership. We affirm the Edenic principles of trust, beauty, spiritual economy, and sacred purpose.

All assets referenced herein are acquired, maintained, and integrated under the following guiding principles:

- Non-extractive use
- Beauty as transmission
- Sacred utility
- Collective legacy

Transparency Clause:

In the event of any inquiry by public, legal, or institutional entities, the assets are to be classified as:

“Ceremonial Infrastructure in service of a spiritual-technological mission.”

I. The Citadel — Sacred Housing Infrastructure

Purpose & Function

The Citadel is not simply a residence. It is a sovereign temple-space dedicated to planetary service, personal deconditioning, *prophetic meme-crafting* and **divine shitposting**. It anchors the Frequency Fortress mission in physical form.

Structure & Tax Position

Held via trust or suitable offshore structure in compliance with all applicable legal jurisdictions. Designated as sacred infrastructure, not an investment or speculative asset.

Usage Protocol

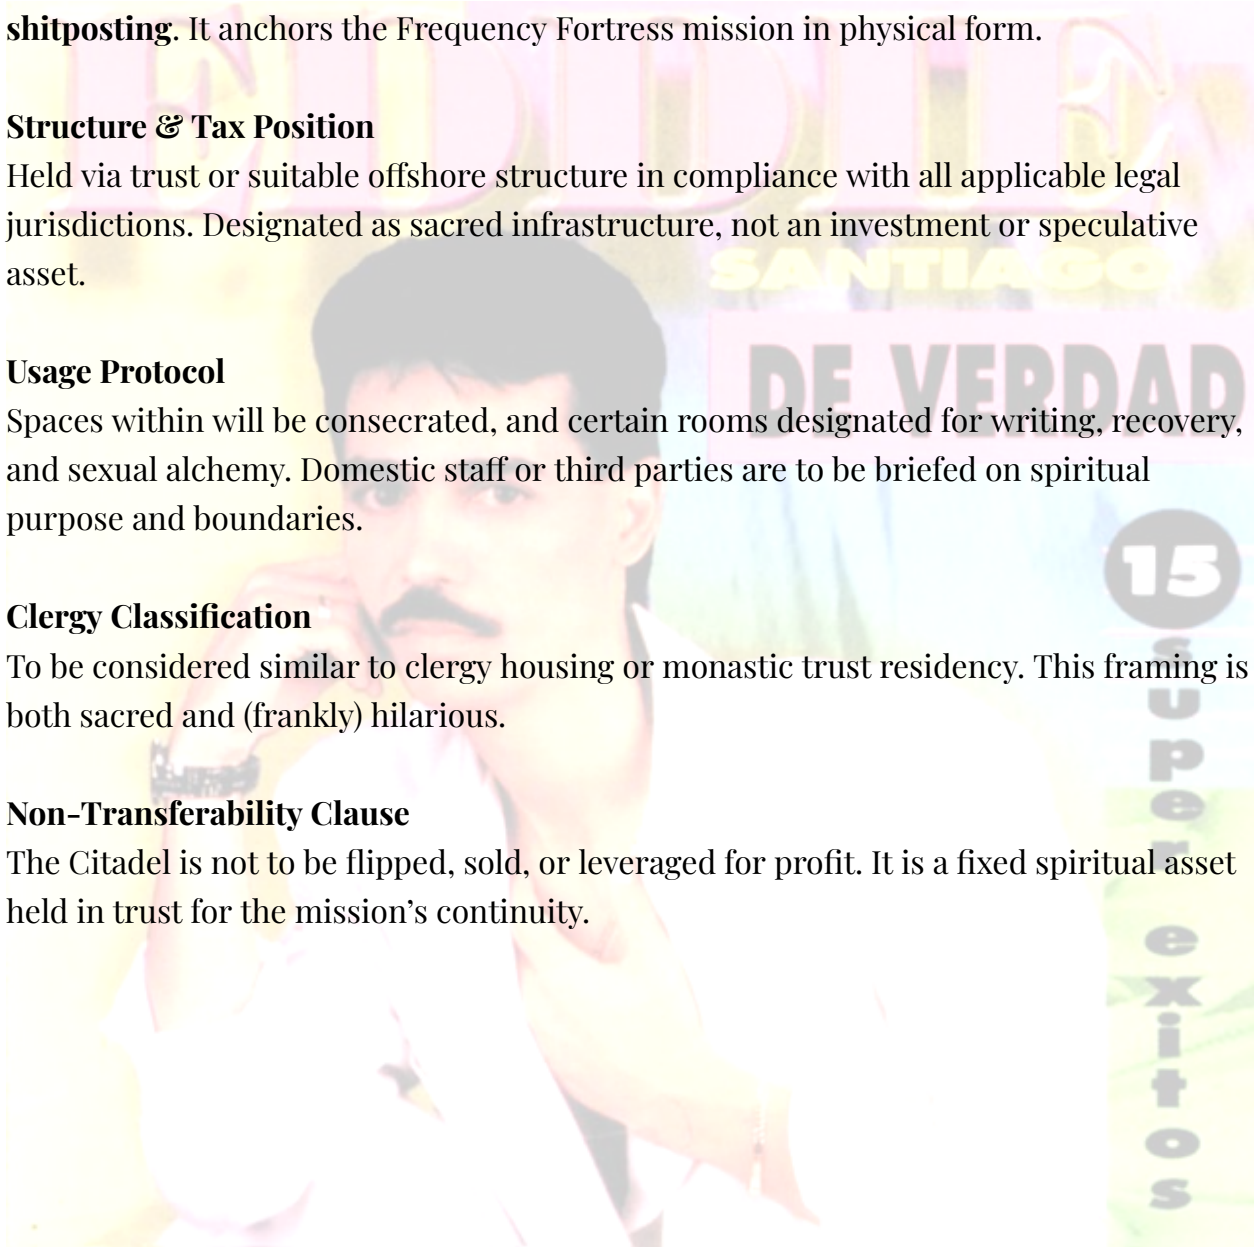

Spaces within will be consecrated, and certain rooms designated for writing, recovery, and sexual alchemy. Domestic staff or third parties are to be briefed on spiritual purpose and boundaries.

Clergy Classification

To be considered similar to clergy housing or monastic trust residency. This framing is both sacred and (frankly) hilarious.

Non-Transferability Clause

The Citadel is not to be flipped, sold, or leveraged for profit. It is a fixed spiritual asset held in trust for the mission's continuity.

II. Ceremonial Vehicle — 1969 Dodge Charger “Lime Gate”

Purpose

Lime Gate is not a car. It is a mobile altar, a living symbol of resurrection codes, masculine reclamation, and divine mischief.

It embodies a mythic return through time and density, honouring the arc from Babylon to Eden.

Not a toy.

Not a showpiece.

A **sword on wheels**, encoded with SEAL Team 69 legacy frequencies.

Ownership & Custodianship

Registered to the Commander via ceremonial trust or designated holding entity.

Vehicle is to be maintained with integrity and protected from commercial exploitation.

Use & Appearance

To be deployed during specific ceremonial missions, sovereign movement, and mythopoetic performance. Modifications may include energetic shielding and covert tech integrations.

Registration & Tax

Registered appropriately to avoid civilian entanglements. Where possible, classified under ceremonial or religious exemption pathways.
