LEGAL NOTICE & INTENT DECLARATION

This document, titled 'Legal Preamble & Public Transparency Statement', outlines a preliminary, visionary allocation framework for the provisioning and deployment of sovereign resources in alignment with a spiritual, technological, and planetary stewardship mission.

All listed allocations are non-binding forecasts and are expressed in good faith as part of a sovereign intent to bring about systemic planetary healing, technological sovereignty, and Christed human embodiment.

This blueprint does not constitute:

- A formal investment prospectus;
- An offer of securities or equity;
- Employment contracts or salaried disbursements;
- Financial advice, tax guidance, or regulated economic instruments.

All language herein is framed under spiritual jurisdiction and sovereign right of expression, with full transparency to partners, allies, and observers. Resource flows described are provisioning-based meaning they are offered in alignment with mission roles, sacred duties, and co-creative capacity, not in exchange for labour in the commercial or taxable sense.

STRUCTURAL NOTES

- Provisioning refers to spiritually-sanctioned energetic support to enable mission-aligned contributions.
- Command Base Infrastructure (Citadel) refers to a physical secure base of operations, potentially financed through lease-to-own, trust-based asset frameworks, or sovereign mortgage equivalents.
- Friend Honorariums are recognition gifts, not compensation.

- Monthly Personal Support ensures operational continuity, not employment.

SOVEREIGNTY DISCLAIMER

This document exists under spiritual law, natural law, and private trust protocols. All recipients and readers are invited to engage from a place of clarity, neutrality, and truth alignment. No governmental body, commercial institution, or taxation authority has automatic jurisdiction over these allocations without explicit consent under divine contract.

REFLECTION

The Christed Earth requires visionary structuring. This Phase I Blueprint represents not just capital flow but the reclamation of divine order in finance.

All who read this are now witnesses to a New Covenant.
