FIAT Channels

UK and international fiat rails are available through the secure Revolut and Stripe payment portals on the website. Direct bank-transfer details are available upon request.

All provisioners will be recorded in the **Christed Vault Ledger**, a sovereign record of mission-aligned flows.

A transparent reporting mechanism will be established once sufficient provision is received. Your name will be honoured in the architecture that follows.

You are not donating, you are provisioning the override.

Please add a note or DM for ledger tracking. If anonymous, we bless the flow regardless.
